

**ORIENTATIVE ESTIMATE OF THE BUDGET (€)
NEEDED TO COMPLETE THE ECT+ EMJMD PROGRAMME (2020-2021*)**

The ECT+ JPB recommends you to be conservative with your financial expectations.

- You should ensure that you could cope with the budget indicated in red for a period of two years because **Mobility and Research Grants cannot be ensured**. If you get them, it will make your life easier but you should be able to complete the programme without their support.
- Note that main **travel costs (resulting from compulsory mobility pathways to partner universities) are not included** and these should be added to your prospective self-funding needs.

Progr. C. student with WAIVER+	BEST TO WORST	5000	18000	<i>Potential grants and fellowships as in the boxes above</i>						5000-23000

⁽¹⁾ Estimates based on only 1 semester granted along the 2 year period; but they might be only 1-2 grants (1 semester each) per intake per year in the best of the cases.

⁽²⁾ Similar grants may apply for other Partners; this is just exemplary. Look for updated information at each Partner's International office and website

⁽³⁾ Only few students will be eligible (and more easily Programme Country students than Partner Country Students, due to permanent residence requisites of the calls)

⁽⁴⁾ Main travel costs are not included.
